

Tendering text: Ampatex Ombrello
Weather protection / construction period cover, fully self-adhesive

Item	Description of service
------	------------------------

- 1 General information
- This weather protection and construction period cover, which also serves as an airtight layer and is bonded over the entire surface, is positioned on the warm side of the thermal insulation. All overlaps and connections must be airtight. Any damage to the area or unavoidable holes must be sealed. Technical details:

Roll size:	1.5 m x 50 m
s _D value:	3.5 m
Weight:	130 g/m ²
Fire index:	RF 3(cr), VKF
Fire behaviour:	E, EN 13501-1
Natural weathering period:	
Steep-pitched roof >10° and wall	3 months
Ceiling	1 month
CE marking:	EN13984:2013

- 2 Supply and install the weather protection and construction period cover on the existing flat furring, with overlaps at least 10 cm wide or along the overlap line. Ampatex Ombrello must be bonded airtight over the entire surface and without creases to a clean and dry surface. Seal any nail or screw heads on roof battens or similar <10° DN with Ampacoll BK 535 nail seal, for >10° DN with Ampacoll ND or nail sealing tapes Ampacoll ND.Band or Ampacoll ND duo.

Note

Considerations in terms of content

Users will occasionally have to make changes to adapt to a specific situation. Similarly, suggestions for tendering texts can only cover standard situations. Custom solutions must be worked out for special circumstances. In its manufacturing process, Ampack AG places an emphasis on state-of-the-art technology and follows established practices in the construction industry as well as all applicable standards and statutory provisions. In the event of doubt, the details provided in the documentation or booklets/fliers published by Ampack AG are definitive.

Legal considerations

The drafting of tendering texts is a voluntary extra service provided free of charge by Ampack for the purposes of aiding architects, planners and fabricators. It is carried out to the best of our knowledge, but to the express exclusion of any liability arising from the provision of advice. See the General Terms and Conditions of Ampack AG for information in this regard.

Authorisation for use by customers of Ampack AG

The tendering texts are authorised for use by our customers (architects, planners and fabricators) for their own purposes. Sharing or publication of these texts in printed or electronic media is not permitted. Constructive comments and additions are welcomed by the author. In order to facilitate transcription to a tendering platform, unnecessary formatting has been avoided.
