New products

Ampatop® Protecta (plus) 3D Prefabrication

If you want your roofs installed and taped in just minutes in the future you are in the right place. With our roof membrane **Ampatop® Protecta (plus)**, a proven product in our range for decades, this is now possible thanks to 3D prefabrication.

> For details, see p.5

Ampacoll® XT FO

Tear-resistant adhesive tape system in two pre-folded versions on the roll. For airtight and windproof taping, for example of rafter and corner connections or window bonding in indoor and outdoor areas.

> For details, see p.50

Non-combustible assortment

Within just five minutes, a small fire can escalate into a fully developed blaze. The consequences are devastating.

Ampack membranes of Euroclass A2-s1,d0 provide the solution, as they do not add to the fire load. Our products deliver maximum safety. We back this with clear specifications.

Our non-combustible system includes roof and façade membranes, a vapour check and adhesive tapes that ensure protection from both inside and outside.

> For details, see p. 8, 9, 22, 23, 29 and 53

Roof membranes

NEW 3D Prefabrication

We also supply **Ampatop® Protecta (plus)** in 3D pre-fabricated form. This offers significant advantages for craftsmen and architects:

- > Simple, efficient installation based on your construction plans
- > Precision-cut pieces for a perfect installation
- > No waste on construction site
- > 3D elements (e.g. dormers) including the correct bonding: controlled and technically proven
- > Huge time savings compared to conventional installation
- > Roof is immediately rainproof

Prefabrication is possible in any case up to a size of 30m in eaves length (right-angled) or 25m in eaves length (special) × max. 26m verge length per piece. Contact us for more information! We'd be happy to advise you on 3D prefabrication!

Video

Guide

Right-angled: Order with specification of "eaves length × verge length" (please indicate ridge position)

Special: Order according to plan (file format DWG, DXF). Illustrations are for reference only. Other shapes are also possible.

3D bonding: Order according to plan (file format DWG, DXF). Illustrations are for reference only. Other shapes are also possible.

— 3D bonding line

Roof area of 250 m² – installed in only 10 minutes!

Ampatop® Protecta plus

Roof membrane

Triple layer, highly tear-resistant roof membrane.
Monolithic technology

Technical details			
s _d value			0,25 m
Resistance to water penetration			W1
Weight			200 g/m ²
Fire behaviour			E
Outdoor weathering			3 months
Minimum roof slope			10°
Tear resistance	longitudinal		360 N/5 cm
	transverse		270 N/5 cm
Resistance to further tearing (nail shaft)	longitudinal		210 N
	transverse		240 N
Temperature resistance			-40 to +80 °C

- > Monolithic technology: Rainproof even in adverse conditions
- > Extra-strong, age-resistant membrane: Lasts a lifetime
- > **Ampatop® Protecta plus:** Integrated tapes on both sides for faster installation
- > Printed cutting aid: Saves time

Article number	Description	Roll dimensions	Content of pallets
7640115533845	Ampatop® Protecta	1,5 m × 50 m = 75 m ²	24 rolls = 1800 m ²
7640115533869	Ampatop® Protecta plus integrated tapes on both sides	1,5 m × 50 m = 75 m ²	24 rolls = 1800 m ²
7640115537645	Ampatop® Protecta plus integrated tapes on both sides	3,0 m × 30 m = 90 m ²	25 rolls = 2250 m ²

NEW

Ampatop® Protecta (plus) Prefabrication

Article number	Description	Roll dimensions
7640115533869	Ampatop® Protecta plus integrated tapes on both sides	
7640442092268	Ampatop® Protecta (plus) Prefabrication right-angled	Eaves length max. 30 m × max. 26 m verge length per piece Minimum order quantity: 100 m ²
7640442092275	Ampatop® Protecta (plus) Prefabrication special	Eaves length max. 25 m × max. 26 m verge length per piece Minimum order quantity: 100 m ²
7640442092343	Ampatop® Protecta (plus) Prefabrication Marking of the counter battens	
7640442092305	Ampatop® Protecta (plus) Prefabrication Marking cut-outs

* Conditions for the twenty-year premium warranty include registering the building object and the Ampack products used. In addition, our products must be used as part of a system. For further details, please see our General Warranty Conditions.

Ampatop® Aero (plus)

Roof membrane

Triple layer, highly tear-resistant roof membrane. PP fleece with coating.

Technical details			
s _d value			0,04 m
Resistance to water penetration			W1
Weight			145 g/m ²
Fire behaviour			E
Outdoor weathering			3 months
Minimum roof slope			10°
Tear resistance	longitudinal		240 N/5 cm
	transverse		180 N/5 cm
Resistance to further tearing (nail shaft)	longitudinal		145 N
	transverse		185 N
Temperature resistance			-40 to +80 °C

- > Diffusion-open yet wind-proof
- > Cutting and orientation aid
- > Also suited as wall membrane
- > **Ampatop® Aero plus:** integrated tapes on both sides

Article number	Description	Roll dimensions	Content of pallets
7640115533821	Ampatop® Aero	1,5 m × 50 m = 75 m ²	28 rolls = 2100 m ²
7640115534798	Ampatop® Aero plus integrated tapes on both sides	1,5 m × 50 m = 75 m ²	28 rolls = 2100 m ²
7640115535542	Ampatop® Aero	3,0 m × 50 m = 150 m ²	28 rolls = 4200 m ²

Ampatop® Secura (plus)

Roof membrane

Double layer, highly tear-resistant roof membrane.

Monolithic TPU technology

Technical details			
s _d value			0,15 m
Resistance to water penetration			W1
Weight			220 g/m ²
Fire behaviour			E
Outdoor weathering			3 months
Minimum roof slope			10°
Tear resistance	longitudinal		300 N/5 cm
	transverse		350 N/5 cm
Resistance to further tearing (nail shaft)	longitudinal		225 N
	transverse		225 N
Temperature resistance			-40 to +80 °C

- > Diffusion-open yet wind-proof
- > Cutting and orientation aid
- > Monolithic TPU technology
- > **Ampatop® Secura plus:** integrated tapes on both sides

Article number	Description	Roll dimensions	Content of pallets
7640115533920	Ampatop® Secura plus integrated tapes on both sides	1,5 m × 50 m = 75 m ²	24 rolls = 1800 m ²
7640115535580	Ampatop® Secura	3,0 m × 25 m = 75 m ²	35 rolls = 2625 m ²

Ampatop® A black

Non-combustible, diffusion-permeable black membrane for roofs

NEW

- > Fire behaviour: A2-s1,d0
- > Non-combustible: no contribution to fire in the ventilation level (curtain wall)
- > Extremely high tensile strength: fall-resistant in accordance with DIN 4426
- > High temperature resistance: particularly suitable behind energy-generating systems
- > UV-stable
- > Outdoor weathering: 9 months

Non-combustible, diffusion-permeable black membrane behind energy-generating systems (PV, solar) and as a fall-resistant roofing membrane.

Technical details

S _d value		0,06m
Resistance to water penetration		W1
Weight		220g/m²
Fire behaviour		A2-s1, d0
Natural weathering period		9 months (before installation of the façade lining)
Minimum roof slope		10°
Tensile strength	longitudinal transverse	2900N/5 cm 2150N/5 cm
Resistance to further tearing	longitudinal transverse	150N 160N
Temperature resistance		-35 bis + 120°C

hour-test**

Video

Item no.	Product name	Roll size	Pallet contents
7640442092107	Ampatop® A black	1,4m × 50m = 70m ²	36 rolls = 2520m ²

Ampatop® A silver plus

Non-combustible, diffusion-permeable membrane for roofs

NEW

Non-combustible, diffusion-permeable membrane behind energy-generating systems (PV, solar), and as a fall-resistant roofing membrane.

Technical details

S _d value		0,08m
Resistance to water penetration		W1
Weight		430g/m²
Fire behaviour		A2-s1, d0
Natural weathering period		9 months
Minimum roof slope		10°
Tensile strength	longitudinal transverse	3000N/5cm 3200N/5cm
Resistance to further tearing	longitudinal transverse	580N 450N
Temperature resistance		-35 bis +90°C
Emissivity		2%
Reflectivity		98%

5000-
hour-test

- > Fire behaviour: A2-s1, d0
- > Non-combustible: no contribution to fire in the ventilation level (curtain wall)
- > Extremely high tensile strength: fall-resistant in accordance with DIN 4426
- > UV-stable
- > Outdoor weathering: 9 months
- > Surface made of micro-perforated aluminium foil: diffusion-permeable, reflects heat and electromagnetic radiation
- > Suitable behind energy-generating systems

Item no.	Product name	Roll size	Pallet contents
7640442092121	Ampatop® A silver plus with integrated tape	1,2 m × 35 m = 42 m ²	24 rolls = 1008 m ²

Weldable roof membrane

Ampatop® Seal (GHS)

- 6** Weldable roof membrane
- 7** Nail sealing tape
- 8** Pressure roller
- 9** Eaves membrane

Ampatop® Seal

Weldable roof membrane

Triple layer weldable roof membrane. Overlaps and connections are welded seamlessly and homogenously. The membrane consists of a fleece and an upper and lower layer of TPU. **Monolithic TPU technology**

Technical details

s_d value	0,20m
Resistance to water penetration	W1
Weight	350g/m ²
Fire behaviour	E
Outdoor weathering	3 months
Minimum roof slope	5°
Tear resistance	longitudinal 350N/5cm transverse 380N/5cm
Resistance to further tearing (nail shaft)	longitudinal 250N transverse 240N
Temperature resistance	-40 to +100°C
Welding temperature	240 to 280°C

- > Monolithic technology: Rainproof even in adverse conditions
- > Can be hot and cold welded
- > Membrane is foldable without any loss of function
- > Printed cutting aid: Saves time
- > Cold resistant: Membrane does not break
- > Prefabrication possible: For faster installation and more safety
- > Suitable for rooftop PV systems

Article number	Description	Roll dimensions	Content of pallets
7640115534385	Ampatop® Seal	1,5 m × 30 m = 45 m ²	30 rolls = 1350 m ²

Ampatop® Seal (GHS)

Accessories

Ampatop® SealStripe

Ampatop® SealStripe is a strip-shaped blank of **Ampatop® Seal** for use as edging on skylights, chimneys, joints, cap flashing and cover strips on counter battens and for effecting repairs.

Technical details	
s _d value	0,20 m
Weight	350 g/m ²
Fire behaviour	E

Article number	Roll dimensions	Sales unit
7640115535160	37,5 cm × 30 m	1 roll

Ampatop® SealStripe GHS

Ampatop® SealStripe GHS is a strip-shaped blank of **Ampatop® Seal GHS** for use as edging on skylights, chimneys, joints, cap flashing and cover strips on counter battens and for effecting repairs.

Technical details	
s _d value	0,20 m
Weight	350 g/m ²
Fire behaviour	E

Quality seal of the association
«Gebäudehülle Schweiz»

Article number	Roll dimensions	Sales unit
7640442090776	37,5 cm × 30 m	1 roll

Ampacoll® LiquiSeal

Solution welding compound for seamless homogeneous welding of **Ampatop® Seal (GHS)**. No further adhesives, hot air or other consumables required.

Technical details	
Working temperature range	0 to + 70 °C
Consumption	approx. 1 litre for 200 m ² roof membrane

Article number	Content	Sales unit
7640115534446	1,25 l	6 tins
7640115534514	5 l	1 bucket

Ampacoll® LiquiSeal Applicator

Bottle and brush for easy application of **Ampacoll® LiquiSeal** on **Ampatop® Seal (GHS)**.

> Rectangular, non-roll bottle

Article number	Capacity	Sales unit/Set
7640115535313	500 ml	2 bottles & 5 brushes

Ampacoll® TubeSeal

Prefabricated sleeves for quick ceiling of standard pipe entries. Recommended for use for roof pitches up to 25°. **Ampacoll® TubeSeal** can be welded.

Technical details	
For penetrations with diameter of	80 – 120 mm
Maximum roof slope	25°

Article number	Carton content	Sales unit
7640115534866	4 sleeves	1 carton

Video

Ampacoll® Profix

Solvent-free, airtight, windtight, durable elastic liquid adhesive. Ideally suited for bonding TPU sheeting, connecting a membrane to the eaves flashing, lining overlaps on wind seals, and mounting wind seals on metal sections.

- > Permanently elastic and tacky
- > Ideal for TPU products
- > Resistance against condensation and run-off water
- > No primer necessary
- > Repositionable
- > Notched nozzle for a more even bead

Technical details

Storage	frost-free, cool and dry
Working temperature	+5 to +35 °C
Temperature resistance	-40 to +90 °C
Ageing resistance	> 20 years
Setting time	Two to three days
Solvents	solvent-free
Consumption	30–50 ml/m

Article number	Contents	Carton contents	Pallet contents
7640442090417	290 ml/cartridge	12 cartridges	130 cartons

Ampacoll® DoubleSeal

Double-sided adhesive moisture-resistant acrylic tape. The ideal jointing tape for metal sheeting and other flat surfaces.

Technical details

Working temperature range	above -5 °C
Temperature resistance	-30 to +90 °C

Article number	Roll dimensions	Carton content
7640115534941	30 mm × 25 m	8 rolls

Ampatop® SealEdge

Ampatop® SealEdge is a prefabricated eaves membrane with a UV-resistant PVC strip welded to an **Ampatop® Seal** roof membrane. The product is used to seal open eaves with perforated metal to drain water from the roof membrane into the gutters.

Technical details

Welding temperature Ampatop® Seal	240 to 280 °C
Welding temperature PVC strip	300 to 330 °C
UV stability Ampatop® Seal	3 months
UV stability PVC strip	> 10 years

Article number	Roll dimensions
7640115536945	600 mm × 30 m

Ampatop® SealEdge GHS

Ampatop® SealEdge GHS is a prefabricated eaves membrane with a UV-resistant PVC strip welded to an **Ampatop® Seal GHS** roof membrane. The product is used to seal open eaves with perforated metal to drain water from the roof membrane into the gutters.

Technical details

Welding temperature Ampatop® Seal	240 to 280 °C
Welding temperature PVC strip	300 to 330 °C
UV stability Ampatop® Seal	3 months
UV stability PVC strip	> 10 years

Article number	Roll dimensions
7640442090752	600 mm × 30 m

Ampacoll® SealForm

Stretchable and flexible yet also durable special material for lasting corners, penetrations and connections.

Technical details

Outdoor weathering	6 months
Welding temperature Ampatop® Seal (GHS)	240 to 280 °C

Ampacoll® SealForm 1

Corner – short, 90°

l × w × h: 250 × 250 × 200 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Cutting lines shown
- > Flat edges prevent capillary action
- > Material made from **Ampatop® Seal GHS**

Ampacoll® SealForm 5

Round patch

Ø 200 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Flat edges prevent capillary action
- > Material made from **Ampatop® Seal GHS**

Ampacoll® SealForm 930/945

Penetration – high
30° / 45°

l × w × h: 400 × 400 × 250 mm
Ø 160 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Material made from **Ampatop® Seal GHS**

Ampacoll® SealForm 11

Corner – long variable

l × w × h: 800 × 800 × 200 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Cutting lines shown
- > Flat edges prevent capillary action
- > Material made from **Ampatop® Seal GHS**

Ampacoll® SealForm 20/410

Pipe collar for chimney

l × w × h: 630 × 600 × 275 mm
Ø 410 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Material made from **Ampatop® Seal GHS**
- > Roof slope: 5° - 45°

Ampacoll® SealForm 660

Roof window skirt as U-shape

l × w × h: 755 × 660 × 375 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Material made from **Ampatop® Seal GHS**

Ampacoll® SealForm 780

Roof window skirt as U-shape

l × w × h: 755 x 780 x 375 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Material made from **Ampatop® Seal GHS**

Ampacoll® SealForm 1140

Roof window skirt as U-shape

l × w × h: 755 x 1140 x 375 mm

- > Can be solvent or heat welded
- > Fits perfectly on **Ampatop® Seal (GHS)**
- > Material made from **Ampatop® Seal GHS**

Article number	Description	Carton content
7640115537195	Ampacoll® SealForm 1: Corner – short, 90°	4 pieces

Wall membranes for closed façades

5 Wall membrane

Ampatop® Aero (plus) Wall membrane

Triple layer, highly tear-resistant wall membrane. PP fleece with coating.

Technical details

s_d value	0,04m
Resistance to water penetration	W1
Weight	145 g/m ²
Fire behaviour	E
Outdoor weathering	3 months
Tear resistance	longitudinal 240 N/5 cm transverse 180 N/5 cm
Resistance to further tearing (nail shaft)	longitudinal 145 N transverse 185 N
Temperature resistance	-40 to +80°C

- > Diffusion-open yet wind-proof
- > Cutting and orientation aid
- > **Ampatop® Aero plus:**
integrated tapes on both sides

Article number	Description	Roll dimensions	Content of pallets
7640115533821	Ampatop® Aero	1,5 m × 50 m = 75 m ²	28 rolls = 2100 m ²
7640115534798	Ampatop® Aero plus integrated tapes on both sides	1,5 m × 50 m = 75 m ²	28 rolls = 2100 m ²
7640115535542	Ampatop® Aero	3,0 m × 50 m = 150 m ²	28 rolls = 4200 m ²

Ampatop® Reflecto WS Wall membrane

Triple layer reflective external breathable wall membrane.

Technical details

s_d value	0,08m
Resistance to water penetration	W2
Weight	140 g/m ²
Fire behaviour	E
Outdoor weathering	3 months
Tear resistance	longitudinal 270 N/5 cm transverse 220 N/5 cm
Resistance to further tearing (nail shaft)	longitudinal 160 N transverse 160 N
Temperature resistance	-40 to +80°C
Emissivity value	≤ 3

- > Reflective foiled membrane increases thermal performance of structure
- > Breathable vapour open wall membrane
- > Cutting and orientation aid
- > Breathable membrane reducing the risk of condensation

Article number	Description	Roll dimensions	Content of pallets
7640115537683	Ampatop® Reflecto WS	2,7 m × 100 m = 270 m ²	15 rolls = 4050 m ²
7640115537669	Ampatop® Reflecto WS	3,0 m × 100 m = 300 m ²	15 rolls = 4500 m ²

Wall membranes for façade with open joints

Ampatop® F black plus

Wall membrane

- > UV-resistant
- > Ten-year product guarantee with a joint width up to 50mm/40%
- > Integrated tape
- > Monolithic TPU technology

Double layer, highly tear-resistant black façade membrane for façades with open joints. According to EN13859-2 for walls with open joints, artificial ageing is carried out with 5000 hours of UV exposure (standard is 336 hours).

Monolithic TPU technology

Technical details			
s _d value			0,09 m

Ampatop® RF black (plus)

Low-flammable wall membrane

- > UV stable
- > The fleece is made using recycled PET bottles (100%)
- > Ten-year product warranty for joint width up to 50mm/40%
- > Fire behaviour: B-s1, d0
- > **Ampatop® RF black plus:** integrated tape

Two-layer, low-flammable black wind seal for façades with open joints, consisting of a PET fleece with TPU coating. According to EN 13859-2 for walls with open joints, artificial ageing was carried out with 5000 hours of UV exposure (standard is 336 hours).

Technical details			
s _d value			0.15 m

Ampatop® RF Color plus

Wall membrane

- > The fleece is made using recycled PET bottles (100%)
- > Long-term UV protection and age-resistant
- > Diffusion permeable yet watertight
- > Fire behaviour: B-s1,d0
- > Special colours available on request for quantities of at least 500m²
- > With a maximum percentage of opening of up to 80mm/50%

Two-layer, highly tear-resistant façade membranes with a coloured, monolithic TPU coating for all curtain-type ventilated façades. Available in 3 standard colours and numerous special colours. **Ampatop® RF Color plus** is suitable for partially open and open façade surfacing in wood, expanded metal or perforated plate.

Monolithic TPU technology

Technical details

Ampatop® A black

Non-combustible, diffusion-permeable black membrane for façades

NEW

- > Fire behaviour: A2-s1,d0
- > Non-combustible: no contribution to fire in the ventilation level (curtain wall)
- > Extremely high tensile strength: fall-resistant in accordance with DIN 4426
- > High temperature resistance: particularly suitable for ventilated façades on multi-storey buildings and behind energy-generating systems
- > UV-stable
- > For open façades with joint widths of up to 50 mm/50%
- > Outdoor weathering: 9 months

Non-combustible, diffusion-permeable black membrane for ventilated façades with open joints behind energy-generating systems (PV, solar) and as a fall-resistant roofing membrane.

Technical details			
S _d value			0,06m
Resistance to water penetration			W1
Weight			220g/m²
Fire behaviour			A2-s1, d0
Natural weathering period			9 months (before installation of the façade lining)

6 Vapour check

Ampatex® DB 90

Vapour check

- > 20m s_d value: Suitable for most verification-free constructions
- > High anti-tear values: Ideal for blow-in insulation
- > Dimensionally stable, does not stretch or shrink: No tension in the airtight layer
- > 100% recyclable
- > Translucent: Construction below and markings remain visible

Double layer, tear-resistant vapour check and airtight layer made of thermoset continuous fibres with PP fill layer (100% polypropylene). The membrane is made of high-quality PP and contains no plasticisers. The standard moisture barrier for all roof and wall construction. Also suitable for cellulose insulation.

Ampatex® Cento

Vapour check

- > High stability and tear strength
- > Does not stretch or shrink
- > Translucent – substructure remains visible
- > Does not contain plasticisers

Double layer vapour check and airtight layer with high s_d value for wood structures with impermeable layers on the outside, such as bonded thermal insulation façades in conjunction with moisture-tight insulation materials. Also suitable for internal insulation in older masonry structures. Also suitable for cellulose insulation. Fleece underlay made of polypropylene (PP) with a special membrane made of polyolefin.

s_d value		> 1500 m
Weight		225 g/m ²
Fire behaviour		E
Tear resistance	longitudinal	950 N/5 cm
	transverse	450 N/5 cm
Resistance to further tearing (nail shaft)	longitudinal	50 N
	transverse	80 N
Airtightness		airtight

Article number	Description	Roll dimensions	Content of pallets
7640115530967	Sisalex® 514	1,5 m × 50 m = 75 m ²	40 rolls = 3000 m ²

Sisalex® 518

Vapour and moisture barrier

- > High s_d value, more than 1500 m = absolutely airtight
- > Moisture-resistant, well-suited for e.g. swimming pools
- > PE backing makes the membrane alkali-resistant
- > Increased resistance to tears by nails
- > Can be laid directly on cement-based building materials

Four-layer barrier against damp and moisture consisting of an aluminium and PE layer and a reinforcement consisting of heat-treated continuous filaments with a PP filling layer (100% polypropylene). Suitable for exhaust insulation.

Technical details

s_d value		> 1500 m
Weight		175 g/m ²
Fire behaviour		E
Tear resistance	longitudinal	180 N/5 cm
	transverse	160 N/5 cm
Resistance to further tearing (nail shaft)	longitudinal	180 N
	transverse	180 N
Airtightness		airtight

Article number	Description	Roll dimensions	Content of pallets
7640115536457	Sisalex® 518	1,5 m × 50 m = 75 m ²	40 rolls = 3000 m ²

Sisalex® 871

Radon barrier

- > Membrane, bonded overlap and penetrations tested for radon tightness
- > Protection against radon gas, methane and humidity
- > Extremely stable and tear-resistant
- > Alkali-resistant
- > Also tested as a sill membrane
- > Also tested as a rising damp seal on floor slabs

Four-layer radon barrier consisting of two layers of PE film, a polyester fibre inlay and a 0,008 mm thick aluminium layer.

Technical details

s_d value	> 1500m
Weight	350g/m ²
Fire behaviour	E
Tear resistance	longitudinal 360 N/5 cm transverse 375 N/5 cm
Resistance to further tearing	longitudinal > 280 N transverse > 280 N
Permeability to methane	$4,3 \times 10^{-14}$ kg m/s
Radon diffusion coefficient	$1,4 \times 10^{-13}$ m ² /s

Radon-proof bonding by means of two strips of **Ampacoll® BK 530**, 20mm, mechanical security of the overlap with **Ampacoll® XT**. Seal penetrations with **Ampacol® Radon**.

Externally tested

Article number	Description	Roll dimensions	Content of pallets
7640115531001	Sisalex® 871	2,0m × 50m = 100m ²	25 rolls = 2500m ²

Sisalex® 30

Trickle protection

Single layer craft paper as trickle protection on closed, level intermediate floors, sliding floors, etc. Not applicable for use with sharp-edged bulk materials!

Technical details

s_d value	0,04m
Weight	80g/m ²
Fire behaviour	E

- > Resists ageing very well
- > Dust-proof

Article number	Description	Roll dimensions	Content of pallets
7640115530660	Sisalex® 30	1,25m × 50m = 62,5m ²	85 rolls = 5312,5m ²

Ampacoll® ND Duo Nail sealing tape

Double-sided adhesive nail sealing tape for roof and formwork membranes. Prevents moisture from getting into the construction. Particularly well-suited to prefabrication situations.

- > Double-sided adhesive for easy pre-assembly, fast fitting on the roof and a secure, permanent seal
- > Seal tightness certified by Holzforschung Austria (HFA)!
- > Closed-cell foam – absorbs no water

Technical details

Storage conditions	cool and dry
Temperature resistance	–25 to +75°C
Outdoor weathering	3 months
Durability	> 20 years

Article number	Roll dimensions	Carton content	Content of pallets
7640115533951	30m × 60mm × 3mm	8 rolls = 240m	18 cartons

Ampacoll® ND.Band Nail sealing tape

Single-sided adhesive nail sealing tape for roof and formwork membranes. Prevents moisture from getting into the construction.

- > Seal tightness certified by Holzforschung Austria (HFA)!
- > No paper liner – no waste
- > Closed-cell foam – absorbs no water
- > For over 10 years successfully in use

Technical details

Storage conditions	cool and dry
Temperature resistance	–30 to +80°C
Outdoor weathering	3 months
Durability	> 20 years

Article number	Roll dimensions	Carton content	Content of pallets
7640115530202	30m × 60mm × 3mm	8 rolls = 240m	18 cartons
7640115536389	30m × 80mm × 3mm	6 rolls = 180m	18 cartons

Ampacoll® ND Nail seals

Adhesive nail seals for roof and formwork membranes. Prevents moisture from getting into the construction.

- > Seal tightness certified by Holzforschung Austria (HFA)!
- > No paper liner – no waste
- > Closed-cell foam – absorbs no water

Technical details

Storage conditions	cool and dry
Temperature resistance	–25 to +75°C
Outdoor weathering	3 months
Durability	> 20 years

Article number	Roll dimensions	Carton content	Content of pallets
7640115530110	60mm × 40mm × 5mm 500 pieces/roll	5 rolls = 100m	30 cartons
7640115536228	80mm × 60mm × 5mm 300 pieces/roll	4 rolls = 72m	30 cartons

Ampacoll® Superfix

Liquid adhesive

Liquid adhesive based on synthetic rubber, used to bond overlaps and edge connections of roof membranes and weather-resistant vapour checks. Can also be used at extremely low temperatures.

- > Can even be used to bond wet materials
- > Workable to -20°C
- > Primer not necessary
- > Adheres to most surfaces
- > Always easy to squeeze out
- > Notched nozzle for a more even bead

Technical details

Base material	Styrene-butadiene rubber
Storage conditions	cool and dry
Working temperature range	-20 to +50°C
Temperature resistance	-40 to +80°C
Durability	> 20 Years
Setting time	30 bis 60 minutes
Outdoor weathering	many Years
Solvent	Toluene
Consumption	30-50ml/m

Article number	Content	Carton content	Content of pallets
7640115530028	310ml/cartridge	12 cartridges	150 cartons
7640115530059	600ml/tube	10 tubes	60 cartons

Ampacoll® RA

Liquid adhesive

Solvent-free, airtight and durable elastic edge connection adhesive. Perfect for use with vapour checks and barriers.

- > Odourless – no solvent
- > Primer not necessary
- > Adheres to most surfaces
- > Always easy to squeeze out
- > Notched nozzle for a more even bead

Technical details

Base material	Acrylate copolymer
Storage conditions	frost-free, cool and dry
Working temperature range	0 to +50°C
Temperature resistance	-20 to +80°C
Durability	> 20 years
Setting time	2 to 3 days
Solvent	none
Consumption	30-50ml/m

Article number	Content	Carton content	Content of pallets
7640115530141	310ml/cartridge	12 cartridges	125 cartons
7640115530172	600ml/tube	10 tubes	60 cartons

Ampacoll® Profix

Liquid adhesive

Solvent-free, airtight, windtight, durable elastic liquid adhesive. Ideally suited for bonding TPU sheeting, connecting a membrane to the eaves flashing, lining overlaps on wind seals, and mounting wind seals on metal sections.

- > Permanently elastic and tacky
- > Ideal for TPU products
- > Resistance against condensation and run-off water
- > No primer necessary
- > Repositionable
- > Notched nozzle for a more even bead

Technical details	
Storage	frost-free, cool and dry
Working temperature	+5 to +35°C
Temperature resistance	– 40 to +90 °C
Ageing resistance	> 20 years
Setting time	Two to three days
Solvents	solvent-free
Consumption	30–50ml/m

Article number	Contents	Box contents	Pallet contents
7640442090417	290ml/cartridge	12 cartridges	130 boxes

Ampacoll® XT

Acrylic adhesive tape

Tear-resistant adhesive tape system **in six widths**. The universal adhesive tape for internal and external use with a genuine long-term history. This tape is specially optimised for outdoor application.

- > Tyvek carrier: Does not rot, tearproof, waterproof, does not absorb water
- > Six different widths: The right solution for every challenge
- > Can be torn by hand: No knife necessary
- > Can be processed from -5°C , so it can also be used in winter
- > Used successfully and relied on by our customers since 1995

Technical details

Storage conditions	cool and dry
Working temperature range	above -5°C
Temperature resistance	-40 to $+100^{\circ}\text{C}$
Durability	> 20 years
Outdoor weathering	4 months (without mechanical stress)

Ampacoll® XT 60

Universal adhesive tape, used to tape overlaps in roof and façade membranes or panels – optimised for external use.

Ampacoll® XT 75

Universal adhesive tape, used to tape face and corner joints in wood-based panels. Ideal for bridging over small gaps between components.

Ampacoll® XT 100 single slit

Universal adhesive tape, used to tape overlaps between components. Ideal for bridging over large gaps between components.

Ampacoll® XT 150 single slit

Universal adhesive tape, used to tape panels at ridges, edges and channels.

Ampacoll® XT 200 single slit

For an air and wind tight-taping of injection holes, sills and damaged spots indoor and outdoor.

Ampacoll® XT 250 single slit

For air and wind tight sealing of wide components and reveals. Also suitable as sub-sills in timber-frame construction.

Article number	Description	Roll dimensions	Carton content	Content of pallets
7640115531728	Ampacoll® XT 60	25 m × 60 mm × 0,3mm	10 rolls = 250m	42 cartons
7640115531759	Ampacoll® XT 75	25 m × 75 mm × 0,3mm	6 rolls = 150m	84 cartons

7640115535245	Ampacoll® XT 200, single slit	25 m × 200 mm × 0,3mm Slit: 100mm	2 rolls = 50m	84 cartons
7640115535948	Ampacoll® XT 250, single slit	25 m × 250 mm × 0,3mm Slit: 125mm	2 rolls = 50m	42 cartons

Ampacoll® XT

Acrylic adhesive tape, double-slit

For air and wind-proof taping of rafters and corner connections and for external window bonds.

- > Tyvek carrier: Does not rot, tearproof, waterproof, does not absorb water
- > Can be torn by hand: No knife necessary
- > Can be processed from -5°C, so it can also be used in winter
- > Used successfully and relied on by our customers since 1995

Technical details

Storage conditions	cool and dry
Working temperature	ab -5°C
Temperature resistance	-40 to +100°C
Durability	> 20 years
Outdoor weathering	4 months (without mechanical stress)

Article number	Description	Roll dimensions	Carton content	Content of pallets
7640115533807	Ampacoll® XT 60	25 m × 60 mm × 0,3 mm Slit: 12 mm, 30 mm	10 rolls = 250 m	70 cartons
7640115535979	Ampacoll® XT 100	25 m × 100 mm × 0,3 mm Slit: 12 mm, 50 mm	4 rolls = 100 m	42 cartons
7640115536006	Ampacoll® XT 150	25 m × 150 mm × 0,3 mm Slit: 12 mm, 75 mm	4 rolls = 100 m	42 cartons

Ampacoll® XT FO

Acrylic adhesive tape, pre-folded

Tear-resistant adhesive tape system in two pre-folded versions on the roll. For airtight and windproof taping, for example of rafter and corner connections or window bonding in outdoor areas. The universal adhesive tape for internal and external use with a genuine long-term history. This tape is specially optimised for outdoor application.

- > Pre-folded
- > Diffusion-permeable carriers
- > Keeps its shape thanks to tear-resistant carrier
- > Maximum adhesive power at temperatures from as low as -5°C
- > Extremely robust and durable
- > Tyvek®-carrier is watertight and will not rot

Technische Daten

Ampacoll® Flexx pro

Flexible acrylic adhesive tape

Tearproof yet flexible system adhesive tape for internal and external use. Ideal for airtight and windtight lining of component joints and masking boards on ridges, hips and grooves.

- > Optimum crosswise flexibility
- > Serrated - easy to tear off by hand
- > Soft and adaptable; absorbs component movements

Technical details	
Storage	cool and dry
Working temperature	from -5°C
Temperature resistance	-40 to +100°C
Ageing resistance	> 20 years
Natural weathering period	4 months (without mechanical stress)

Ampacoll® Reflecto Tape Acrylic adhesive tape

Reflective tape for use with Ampatop Reflecto WS and Ampatex Reflecto VCL

- > For internal and external use
- > System accessories for Ampatop Reflecto WS and Ampatex Reflecto VCL
- > Serrated – easy to tear off by hand

Technical details

Storage conditions	cool and dry
Working temperature	from 0°C
Temperature resistance	– 20 to + 80°C
Durability	> 20 years
Outdoor weathering	3 months (without mechanical stress)

Article number	Roll size	Carton content	Content of pallets
7640115537874	50 m × 60 mm	10 rolls = 500 m	49 cartons

Ampacoll® UV Acrylic adhesive tape

Single-sided adhesive tape with applied solvent-free, modified acrylate adhesive and diagonal inlay. Pull-off liner made of silicon paper. Optimum solution for taping **Ampatop® F black plus** and **Ampatop® RF black**.

- > Withstands UV
- > Moisture-resistant, for outdoor use
- > Dimensionally stable
- > Completely black – no overprint

Technical details

Storage conditions	cool and dry
Working temperature range	above –5°C
Temperature resistance	–40 to + 80°C
Durability	> 20 years
Outdoor weathering	3 months (before installation of façade cladding)
UV-stability	> 10 years

Article number	Roll dimensions	Carton content	Content of pallets
7640115533586	25 m × 60 mm × 0,33 mm	10 rolls = 250 m	48 cartons

Ampacoll® UV flexx UV-stable, expandable adhesive tape

UV-stable, tear-resistant but at the same time expandable adhesive tape. Ideal for windtight bonding of **Ampatop® F black plus** and **Ampatop® RF black**.

- > UV-stable
- > Optimum crosswise expandability
- > Moisture resistant, for outdoor use
- > Soft and adaptable, absorbs component movements
- > Completely black, no imprint

Technical details

Storage conditions	cool and dry
Working temperature range	ab –5°C
Temperature resistance	–40 to + 100°C
Durability	> 20 years
Outdoor weathering	3 months (prior installation of façade surfacing)
UV-stability	> 10 years

Article number	Roll dimensions	Carton content	Content of pallets
7640442091339	40 m × 60 mm	10 rolls = 400 m	48 cartons

Ampacoll® A Tape black Non-combustible adhesive tape

UV-stable, repositionable adhesive tape with a low-combustion-load special adhesive and glass-fibre mesh. Removable silicon paper liner. System adhesive tape for bonding the non-combustible, diffusion-permeable black membrane **Ampatop® A black** for ventilated façades and roofs.

- > Fire behaviour: A2-s1, d0
- > UV-stable
- > Moisture resistant, for exterior use
- > Glass-fibre-reinforced, dimensionally stable
- > Completely black – without overprinting
- > Easily repositionable

Technical details

Storage conditions	cool and dry
Working temperature	from 5 °C
Temperature resistance	–30 to +90 °C
Durability	> 20 years
Outdoor weathering	9 months (before installation of the façade surfacing)
UV stability	> 10 years

Article number	Roll size	Carton content	Content of pallets
7640442092176	25 m × 75 mm	6 rolls = 150m	80 cartons

Ampacoll® A Tape silver Non-combustible aluminium adhesive tape

Tearproof, fabric-reinforced adhesive tape with low-combustion-load special adhesive for interior and exterior use. Removable silicon paper liner. System adhesive tape for installing the non-combustible membranes **Ampatop® A silver plus** and **Ampatex® A primo plus**.

- > Fire behaviour: A2-s1, d0
- > UV-stable
- > Moisture resistant, for exterior use
- > Fabric-reinforced, dimensionally stable
- > Reflective surface made of aluminium foil
- > Hand-tearable

Technical details

Storage conditions	cool and dry
Working temperature	from 5 °C
Temperature resistance	–40 to +90 °C
Ageing resistance	> 20 years
Emissivity	2%
Reflectivity	98%
Outdoor weathering	9 months (before installation of the façade surfacing)

Article number	Roll size	Carton content	Content of pallets
7640442092206	25 m × 75 mm	6 rolls = 150m	96 cartons

Ampacoll® INT

Acrylic adhesive tape

Acrylic adhesive for airtight sealing of overlaps and/or edge connections on strips and panel construction materials, or for airtight taping of penetrations of any kind, in each case with smooth surfaces in internal work.

- > Multiple applications: For joints, overlaps and penetrations. Less storage
- > Serrated: Can be torn by hand, no knife necessary. Reduces the amount of adhesive wasted at edges
- > Flexible: Tape is flexible enough to compensate material and component movements
- > Smooth, hand-friendly surface, tape can be rubbed on very well

Technical details

Storage conditions	cool and dry
Working temperature	above -5°C
Temperature resistance	-40 to +100°C
Durability	> 20 years

Article number	Roll dimensions	Carton content	Content of pallets
7640115530080	40m x 60mm x 0,25 mm	10 rolls = 400m	48 cartons

Ampacoll® Easy

Linerless adhesive tape made of special paper

Paper-based acrylic adhesive tape for airtight sealing of overlaps and joints on smooth surfaces when working dry indoors with membranes or panel-like building materials. Thanks to the special membrane, it can be applied directly from the roll without having to peel off a liner.

- > Linerless, even in production: no waste
- > Fast to apply
- > Highly adhesive
- > No waste: lower risk of accidents
- > Can be torn by hand: no knife necessary

Technical details

Storage conditions	cool and dry
Working temperature	above +5°C
Temperature resistance	-40 to +100°C
Durability	> 20 years

Video

Article number	Roll dimensions	Carton content	Content of pallets
7640442091490	40m x 60mm	10 rolls = 400 m	60 boxes

Ampacoll® Easyfix

Linerless sealing patches made of special paper

Paper-based acrylic sealing patches for quick sealing of larger openings such as blow-in openings on smooth surfaces when working dry indoors with membranes or panel-like building materials. Thanks to the special membrane, it can be applied directly from the roll without having to peel off a liner.

- > Linerless, even in production: no waste
- > Fast to apply
- > Highly adhesive
- > Easy to tear thanks to ideal perforation

Technical details

Storage	cool and dry
Working temperature	from +5°C
Temperature resistance	-40 to +100°C
Ageing resistance	> 20 years

Video

7640442091551	180mm x 180mm 220 pieces/roll	2 rolls = 440 pieces	72 boxes

Ampacoll® Fenax 40/60 Vapour edge tape

Vapour edge tape to professionally join vapour checks or wood materials to bare brickwork or concrete. The airtight layer is created by plastering over the tape.

- > Can be plastered over
- > Fully adhesive on one side
- > Extremely adhesive
- > Split finger lift liner
- > No primer required on dry surfaces
- > For indoor and outdoor use
- > Can be left exposed to the weather for 12 months

Technical details

Storage conditions	cool and dry
Working temperature	-5 to +40°C
Temperature resistance	-40 to +100°C
Outdoor weathering	12 months (Central Europe)
Elongation at break	longitudinal 100% transverse 140%

Article number	Roll dimensions	Carton content
7640115536921	100mm × 25m Liner split: 40mm, 60mm	4 rolls = 100m

Ampacoll® BK 530 Butyl-rubber adhesive tape

Double-sided butyl-rubber strip to tape wall membranes, vapour checks and vapour barriers. Also, almost any connections on wood, masonry, concrete, metal, etc. are easy to carry out and durable. Use a primer if necessary!

- > Vapour-barrier properties
- > High-quality butyl
- > > 300% elasticity
- > Smoothes uneven surfaces
- > Chlorine-resistant
- > Permanently elastic, does not become brittle

Technical details

Storage conditions	cool and dry
Working temperature	above 0°C
Temperature resistance	-40 to +90°C
Durability	> 20 years
Outdoor weathering	3 months

Ampacoll® BK 530 15 mm

Use to tape overlapping joints indoors and outdoors.

Ampacoll® BK 530 20 mm

Use for edge connections and to tape overlapping joints indoors and outdoors.

Article number	Description	Roll dimensions	Carton content	Content of pallets
7640115532954	Ampacoll® BK 530, 15mm	25m × 15mm × 1 mm	8 rolls = 200m	60 cartons
7640115532985	Ampacoll® BK 530, 20mm	25m × 20mm × 2 mm	8 rolls = 200m	32 cartons

Ampacoll® BK 535

Butyl-rubber adhesive tape

Sleeve formed by hand. Adhesive on one side of highly flexible butyl-rubber strip for durable, simple sealing of wood-based panels and penetrations through vapour checks and barriers, as well as rafters, purlins, vapour pipes, etc. Use a primer if necessary!

- > Split finger-lift liner
- > Vapour-barrier properties
- > Highly flexible – follows component movement
- > Easy to use – shape by hand
- > High-quality butyl
- > > 300% elasticity
- > Smoothes uneven surfaces
- > Chlorine-resistant
- > Permanently elastic, does not become brittle

Technical details

Storage conditions	cool and dry
Working temperature	above 0°C
Temperature resistance	-40 to +90°C
Durability	> 20 years
Elasticity	> 300%
Outdoor weathering	3 months

Ampacoll® RS

Round cord made from butyl rubber

Self-adhesive round cord made from high-quality butyl rubber.

- > Vapour-barrier properties
- > For component connections on uneven surfaces
- > For connections on structured substrates
- > Ideal in joist areas
- > > 300% elasticity
- > Permanently elastic

Technical details

Storage conditions	cool and dry
Working temperature	above 0°C
Temperature resistance	-40 to +90°C
Durability	> 20 years
Outdoor weathering	3 months

Ampacoll® RS

4 mm

Air tight jointing of precisely-fitted wooden construction components with planed surfaces – e.g. window frames in unit components.

Ampacoll® RS

6 mm

Air tight jointing of precisely-fitted wall elements in wood-framed buildings, or edge connections between vapour checks and plaster.

Ampacoll® RS

10 mm

Air tight jointing of pre-produced concrete elements or precise building components, with a gap width up to 7mm.

Article number	Description	Roll dimensions	Carton content	Content of pallets
7640115533135	Ampacoll® RS, 4 mm	12 m × 4 mm	10 rolls = 120 m	32 cartons
7640115533166	Ampacoll® RS, 6 mm	8 m × 6 mm	10 rolls = 80 m	32 cartons
7640115533197	Ampacoll® RS, 10 mm	4,75 m × 10 mm	10 rolls = 47,5 m	32 cartons

Ampacoll® DT Installation tape

Double-sided adhesive tape for fast and durable fixing of vapour checks and metallic profiles in dry-wall constructions.

- > Robust and durable – excellent adhesive qualities
- > No chewing-gum effect, thanks to stable fibre inlay
- > Double-sided adhesive – for fast, staple-less installation

Technical details

Storage conditions	cool and dry
Working temperature	above -5°C
Temperature resistance	-40 to +80°C
Durability	> 20 years

Article number	Roll dimensions	Carton content	Content of pallets
7640115531667	50m × 20mm × 0,3mm	12 rolls = 600m	60 cartons

Ampacoll® DoubleSeal Double-sided adhesive

Double-sided adhesive moisture-resistant acrylic tape. The ideal jointing tape for metal sheeting and other flat surfaces.

- > Robust and durable – excellent adhesive qualities
- > No chewing-gum effect, thanks to stable fibre inlay
- > Double-sided adhesive – for fast, staple-less installation

Technical details

Working temperature range	above -5°C
Temperature resistance	-30 to +90°C

Article number	Roll dimensions	Carton content
7640115534941	30mm × 25m	8 rolls

Ampacoll® Cornerfix Self-adhesive inside and outside corners

Pre-fabricated, self-adhesive inside and outside corner for quick and easy creation of a permanently windtight or airtight and flexible joint, e.g. for windows, doors, etc. UV stable non-woven backing for external use.

- > Quick and clean connection of e.g. windows and doors: saves time
- > Dimensionally stable
- > Airtight, rainproof and windproof
- > Moisture resistant, for outdoor use
- > UV stable

Technical details

Storage	cool and dry
Working temperature	+5 to +30°C
Temperature resistance	-30 to +80°C
Ageing resistance	> 20 years
Outdoor weathering	3 months (prior to installation of façade surfacing)

Article number	Adhesive area	Carton content	Application
7640442091858	200 × 200 × 75 mm	20 pieces	Outside corner
7640442091827	75 × 75 × 75 mm	20 pieces	Inside corner

Ampacoll® Primax Primer for adhesive

Ampacoll® Primax is a solvent-free primer for Ampacoll butyl and acrylic adhesive strips on porous surfaces, such as masonry, plaster, concrete, bare wood, soft wood fibre board, etc.

- > Quick dry
- > Innovative non-stick screw cap
- > Handy square bottle that cannot roll away
- > Highly resistant even in unfavourable conditions (moisture, cold)
- > Solvent-free and odourless

Technical details

Storage conditions	+5 to +25 °C (keep out of direct sunlight.)
Working temperature	-10 to +45 °C (Surroundings and surface)
Temperature resistance	-40 to +90 °C
Drying time on dry surfaces:	+20 °C approx. 15 min. +5 °C approx. 30 min. 0 °C approx. 45 min.
Consumption	65-85 m (at 60 mm width, depending on surface)
Colour	transparent

Article number	Content	Carton content	Content of pallets
7640115536433	1000 ml	6 bottles	100 cartons

Ampacoll® Airmax Primer for adhesive

NEW FORMULATION:
also suitable for indoor use

Primer for Ampacoll adhesive strips on porous surfaces, such as masonry, plaster, concrete, bare wood, soft wood fibre board, etc. Suitable for use in difficult conditions (cold, damp)

- > Sprayable, faster than with a brush
- > Short drying time
- > Permanently tacky
- > Makes overhead and vertical work easier

Technical details

Storage conditions	+5 to +25 °C (keep out of direct sunlight.)
Working temperature	-5 to +35 °C (Surroundings and surface)
Temperature resistance	-20 bis +80 °C
Drying time on a dry background at:	+20 °C approx. 10 min. +5 °C approx. 20 min. 0 °C approx. 30 min. -5 °C approx. 40 min.
Productiveness	30-70 m at 60 mm width, depending on surface
Colour	transparent
Solvent	yes

Article number	Content	Carton content	Content of pallets
7640115536273	500 ml	12 bottles	75 cartons

Ampacoll® Elektro/Install Sleeves

Adhesive collar made of **Tyvek®** with an acrylic adhesive. Flexible, tear-resistant and age-resistant EPDM. Stays sealed even when moved or subjected to tensile loading.

Technical details	
Storage conditions	cool and dry
Working temperature range	above -5°C
Temperature resistance	-30 to +130°C
short-term up to	+160°C
Durability	> 20 years
Outdoor weathering	3 months

Ampacoll® Radon Sleeves

Sleeves for radon-tight sealing of round penetrations. For indoor and outdoor use in construction (must be additionally secured with a hose clamp). The sleeves consist of an EPDM moulded part embedded in an aluminium flange with an adhesive surface made of butyl.

- > Certified radon-tight
- > Remains impermeable even if exposed to movements or tensile force
- > Easy-peel silicon paper
- > Long EPDM moulded part – sticks tightly to the penetration

Technical details

Storage	cool and dry
Application temperature	from 0°C
Temperature resistance	-40 to +100°C
Durability	> 20 years
Outdoor weathering	3 months

Ampacoll® Fenax Window connection tape

Fully adhesive on one side with and without split liner. This window connection tape is ideal for creating tight connections of windows or doors **after** installation.

- > Extremely adhesive even at low temperatures
- > Adhesive all over
- > Moisture variable
- > Same tape for both inside and outside use The «tighter inside than outside» requirement is met
- > Easy-peel liner
- > Safe to plaster over
- > No primer required on dry surfaces
- > Weather resistant for 12 months

Technical details

Ampacoll® Sillskin black Window sill covering

Highly elastic butyl rubber strip for covering parapets in timber construction. Serves as protection before windows are installed or as a seal on window sill.

- > Stretchable
- > Split liner for easier window installation
- > Easy unrolling from a sturdy carton
- > Tested for tightness against stagnant water by IFT Rosenheim

Technical details

Storage	Cool and dry
Operating temperature	from 0°C
Temperature resistance	-40 to +90°C
Resistance to ageing	> 20 years
Natural weathering period	3 month

Item no.	Roll size	Box contents
7640442092350	20m × 150mm × 1mm	1 box
7640442092374	20m × 200mm × 1mm	1 box
7640442092398	20m × 300mm × 1mm	1 box

Ampacoll® FE Window installation tape

Modified acrylic adhesive with thread inlay on synthetic fibre paper. Adhesive tape with adhesive-free intermediate space and sectioned pull-off liner made of tear-resistant PE film. The ideal adhesive tape for airtight taping of window joints, corner connections and panel butts.

- > Vapour-dampening zone
- > Adhesive-free zone: accommodates movement
- > System product for external window bonding: **Ampacoll® XT** 60mm, double-slit

Technical details

Storage conditions	cool and dry
Working temperature	above -5°C
Temperature resistance	-30 to +90°C
Durability	> 20 years

Ampack

Point of Sale Display

Structure:

Left: One main body incl. 1 insert for 4 membrane rolls, Ø ~17 cm

Right: Four shelves incl. one insert for 30 cartridges, Ø ~5.3 cm

Branded permanent display made of robust plywood, for professional presentation of your Ampack products (membranes as well as adhesive technology). Inserts with milled holes ensure stability for the products, while two brochure holders allow you to offer your customers a range of information material. Product labels can be ordered in addition.

- > Quick to assemble
- > Strong material
- > Reducible in height thanks to removable topper
- > Insert with milled holes to keep the products stable
- > Two A4 brochure holders on the left and right

Technical details	
Height	150–180 cm (removable 30 cm topper)
Width	97,5 cm
Depth	45 cm
Material	Plywood, digitally printed
Material thickness	6 mm
Packaging	Single, flat
Delivery	On pallet
Assembly time	~20–30 minutes

Item no.	Product name	Dimensions

Ampack warranties

The ten-year craftsman's warranty*

Occasionally a product falls below its guaranteed specifications, which impairs its functionality. Naturally the craftsman is dealt the worst hand in this case, as they have to defend the quality of the work they have carried out.

Ampack's extra-contractual warranty on behalf of the craftsman covers the entire warranty period that the worker has vis-à-vis the client.

The fabricator can make a claim under the full warranty at any time up to 10 years after the products have been delivered by Ampack, even if it takes up to five years for the work to be accepted after Ampack has delivered the material.

Ampack AG's ten-year skilled manual worker warranty covers:

- > Replacement of materials
- > Conversion costs
- > Installation costs

Our warranty conditions and the property registration form can be found on our website **ampack.biz**.

*valid within Europe

The 20-year premium warranty*

Ampack's extended warranty comes in handy when the craftsman wants to give their customers added peace of mind. It is **property-specific** and insures the utilised Ampack products¹ for more than 20 years. This offers much greater protection at no additional cost: Ten-year full warranty, plus 10-year material warranty.

Ampack AG's 20-year premium warranty covers:

- ★ **Replacement of materials:** for 20 years after acceptance of the work
- ★ **Conversion costs:** for 10 years after acceptance of the work
- ★ **Installation costs:** for 10 years after acceptance of the work

Conditions for the 20-year premium warranty

- > The selected products are used correctly. Corresponding information is provided in the sales programme for each product.
- > The applicable standards, construction best practices and Ampack application guidelines are adhered to.
- > The products are used within 2 years of purchase and are stored correctly, and any expiry dates are observed.
- > The property registration form is filled in, signed and submitted.

*valid within Europe

¹A list of products excluded from the 20-year warranty can be found in the warranty conditions.

Adhesive Matrix

Key

- 1 One side of material must be open diffusion
- 2 Film must not exude any separating agents or lubricants
- 3 Only as aid to assembly
- 4 Only for edge connections

▲ For external use

▲ For internal use

■ Use primer

* Overlaps are welded.

Other suitable accessories can be found from page 14.

Adhesive Matrix

</

This information constitutes recommendations for optimum work results. Please ensure that you take note of the relevant product data sheets. Ampack will be happy to answer any questions you might have. Based on our experience and the recommendations given in the standards, mechanical protection should be used in the connection area. In many cases this facilitates the application of the interior lining. In order to ensure the optimum adhesion to guarantee the long-term wind and airtightness of the

[illegible]

layers, the surfaces to be bonded must be clean, dry and free from any dust, ice or grease. For production reasons, release agents are used on certain surfaces (e.g. ready-mixed and monolithic concrete, OSB panels, galvanised metal, etc.). In cases of doubt use a primer or undertake your own adhesion tests. Ongoing natural weathering or permanent moisture can damage the adhesive or make it unusable.

When nature proves its strength

Our roof system. Security in any weather!

Our airtight system. Benefit from the advantages!

Ampatop® Aero

- > Diffusion-open yet wind-proof
- > Cutting and orientation aid
- > **Ampatop® Aero plus:** integrated tapes on both sides
- > Also suited as wall membrane

Ampacoll® XT 60 mm

- > Carrier open to diffusion
- > Dimensionally stable thanks to tear-resistant backing
- > Extremely robust and durable
- > Highest bond strength from as low as -5°C
- > Can be plastered over Four months' natural weathering period

Ampacoll® Superfix

- > Adheres to almost all sub-surfaces
- > Even damp building materials can be bonded
- > Workable down to -20°C
- > No primers necessary
- > Always easy to squeeze out

Ampacoll® BK 535

- > Extremely flexible and can be shaped in three dimensions
 - > Always the right sleeve
- > Highly flexible, follows movements of the component and evens out rough substrates
 - > 2mm thick, unlike cheaper products
- > Vapour seal for use indoors and outdoors

Ampacoll® BK 535

Ampatex® DB 90

- > Standard in roof and wall construction
- > s_d value 20m – for universal application
- > Compatible with all standard heat insulation materials
- > Dimensionally stable, tear-resistant and supple
- > Also available as a purlin connection strip 75cm wide

Ampacoll® INT

- > Adhesive tape system for two applications:
 - overlaps and
 - penetrations
- > Robust, flexible and can be torn by hand
- > Translucent

Ampacoll® RA

- > Odourless – free from solvents
- > No primers necessary
- > Bonds to almost all sub-surfaces
- > Cartridge always easy to squeeze out

Your benefits

More security in the roof and the façade with the complete system from a single source.

Ampatop® Aero (plus) is a three-layer, high tensile roofing and wall membrane. More on www.ampack.biz.

external

Your benefits

Complete airtight system from a single source. Verifiable airtightness thanks to the perfectly matched, high-quality components. You can find even more systems on www.ampack.biz.

internal

General Terms and Conditions of Business, Ampack AG

1. General

- a) The quotations, deliveries and services of Ampack AG are provided exclusively on the basis of these Terms and Conditions of Business. It will be assumed that these Terms and Conditions of Business have been accepted when an order is placed. Any deviating Terms and Conditions imposed by the customer will be rejected, unless otherwise agreed in writing. Ampack AG's General Terms and Conditions of Business apply to dealers and other customers who are not tradespeople.
- b) Written confirmation will be required in each case for any deletion or revision to the General Terms and Conditions of Business.
- c) Verbal assurances from Ampack AG will only become valid when they are confirmed in writing and undersigned.
- d) Quotations are non-binding and subject to confirmation. The contract between Ampack AG and the customer only comes into force when the order is accepted by Ampack AG. Ampack AG will either accept the order by issuing an order confirmation or by delivering the ordered goods.

2. Designs and technical documents

Brochures and catalogues are non-binding. Information given in designs and technical documents are only binding if they have been expressly guaranteed. Ampack AG retains all rights to the designs and technical documents it has provided. If no order is awarded, the designs relating to the quotation must be returned to Ampack AG immediately. We provide calculations free of charge. They represent no commitment in the form of a legally binding planning service. Calculations should be checked by the planning service and the implementing company.

3. Prices

- a) The prices are quoted net, in Euro, ex-works, unpacked, excluding Value added Tax (VAT) and other duties, unless otherwise agreed in writing. Packaging, freight, carriage and any further costs will be invoiced separately.

4. Payment terms

- a) The purchase price must be paid net upon separate agreement.
- b) The agreed payment dates must be met by the customer, even if transport, delivery, installation or acceptance has been delayed or prevented for reasons that are not the responsibility of Ampack AG, or if unimportant parts are missing, or if it becomes clear that additional work is necessary, as long as this does make it impossible to use the delivered goods. The customer does not have the right to unilaterally curtail, offset or hold back payments as a result of complaints, claims or un-recognised counter-claims. This also applies in particular if it becomes clear that additional work is required on the delivered goods.
- c) If the customer is in arrears with an agreed payment, Ampack AG has the right to cease carrying out the contract, or to retain goods that are ready for delivery, without any restriction of its statutory rights and without the customer having the right to demand compensation.
- d) If the customer does not adhere to the agreed payment dates, he must, without notice being given, pay interest from the time the payment is due, at a rate of 4% over the rate charged by the St.Gallen Cantonal Bank for 1st new mortgages on residential properties. The customer must also pay the costs of advice and collection. The right to compensation for damages is retained. In addition, Ampack AG also has the right to withdraw from contracts already confirmed, without the customer having the right to claim compensation. If the customer is longer than two weeks late with a payment or provision of an agreed security, all the remaining amount will then become payable.

5. Delivery

- a) Delivery will be made on the date requested by the customer whenever possible. Delivery periods and dates notified/agreed will be maintained whenever possible, but are not binding unless Ampack AG has provided assurance to the contrary in writing. Delays in delivery do not provide reasons for withdrawal or compensation for the customer.
- b) The delivery period begins as soon as the contract has been concluded, the necessary technical documentation from the customer has arrived at Ampack AG, the agreed payments and securities have been provided and the necessary official permits have been awarded. The delivery period has been maintained if the goods have arrived with the customer before the end of the period. The delivery period will be extended accordingly if the delivery period is not maintained due to circumstances such as epidemics, natural events, mobilisation, war, insurrection, employment conflicts, boycotts, accidents, significant interruptions to operations or official measures. The delivery period will also be extended if the customer makes changes to the order after it has been awarded, or is late carrying out his statutory obligations, particularly if he does not deliver the necessary documents in good time, does not provide the agreed payments or securities or is late carrying out work that he must undertake.
- c) If there is a delay in acceptance, the customer has a duty to compensate Ampack AG for any resulting damages. In such cases, Ampack AG has the right to deposit the purchased item at the cost and risk of the customer or to withdraw from the contract, with compensation from the customer for the damages thus suffered by Ampack AG. In particular, delay in acceptance applies if the customer unlawfully refuses to accept the purchased item because of delays in delivery.

6. Packaging

The packaging will not be taken back.

7. Unpaid advice

Any unpaid technical advice is provided to the best of our knowledge, but excludes any pre-contract or contractual obligations. Ampack AG does not accept any responsibility for this advice, particularly for the correctness of the content of the advice.

8. Transfer of risk and insurance

The risk is transferred to the customer at the time of delivery at the latest. This also applies in the case of partial deliveries, or if Ampack AG has taken responsibility for other costs, e.g. despatch costs, or carriage and installation.

9. Place of fulfilment

The place of fulfilment for all the contractual services is Rorschacherberg/Switzerland, unless otherwise agreed.

10. Acceptance

The customer must check the goods and the associated delivery papers immediately upon receipt. Any claims regarding uncorrected defects (differences of quantity/damage) will only be accepted within 24 hours, or within 6 days in the case of hidden defects.

11. Claims for defects/Guarantee

- a) The guarantee period lasts for 6 months from delivery to the customer. The guarantee from Ampack AG depends on the fulfilment by the customer of the agreed payment conditions by the agreed times.
- b) Ampack AG has a duty to correct or replace, at its own decision and as quickly as possible, the delivery or any part of the delivery that is proven to be damaged or unusable as a result of defective material or implementation, at the written request of the customer. The right to cancellation or reduction of the sale is excluded. If a delivery is still affected by defects, despite replacement delivery or corrective work, Ampack AG can withdraw the defective delivery and repay the payments received. Material that has been replaced will remain the property of Ampack AG. The guarantee period (Clause 11 above) will not be extended as a result of individual correction work or replacement deliveries.
- c) The guarantee and liability provisions exclude damages that cannot be proved to be the result of poor material from Ampack AG or defective workmanship, but might for example be the result of normal wear and tear, defective maintenance, neglect of the instructions for use, excessive stress, unsuitable operational methods, construction or installation work not carried out by Ampack AG or other reasons for which Ampack AG is not responsible.
- d) The only guaranteed characteristics are those specified as such in the specifications.

12. Consequential damages

The entitlements of the customer to the guarantee and liability provisions are definitively regulated by these Terms and Conditions. Subject to the obligatory statutory provisions, the customer has no contractual or non-contractual entitlements to compensation for damages such as loss of production, loss of benefits, loss of contracts, loss of earnings or other direct or indirect damages.

13. Retention of ownership

- a) The purchased goods will remain the property of Ampack AG until full payment of the purchase price, including interest and any other costs has been made, and Ampack AG will be empowered by the customer to register retention of ownership in accordance with Art. 715 ZGB (the Swiss Civil Code).
- b) The customer may not sell or pledge, lend or hire out the purchased goods until full payment of the purchase price, including interest and any other costs has been made. In addition, the customer has a duty not to remove the purchase goods from his warehouse and/or his national territory without the express written permission of Ampack AG. If any pledge, retention or arrest should occur, the customer must refer to the retention of the right of ownership and advise Ampack AG immediately.
- c) The customer has a duty to collaborate at his own cost with any necessary measures to protect the property of Ampack AG.
- d) During the period of retention of ownership, Ampack AG has the right to conclude an insurance policy for its own benefit, at the cost of the customer, to cover all the risks that come into consideration.

14. Declaration of consent under data protection law

Ampack AG processes data on the customer (incl. company name, address, personal details of the contacts within the company and other business-related data) and data on the customer's activities (incl. orders and complaints) in the context of the business relationship and for marketing purposes. Data processing includes the collection, storage, use, transmission, disclosure and deletion of data. These are performed with all due care and in accordance with Swiss data protection rules. By placing an order, the customer agrees that the customer data obtained by Ampack AG may be used directly and/or indirectly in the context of the business relationship and for marketing purposes, and may be transmitted and disclosed to business partners of Ampack AG (e.g. suppliers) for the same purposes. The customer expressly agrees that the data will also be transmitted to and processed in countries where laws regarding the processing of personal information may be less stringent than those of Switzerland. The customer's consent is given voluntarily and the customer has the right to revoke the consent to receive advertising at any time. The remaining data is required to be processed for business purposes within the context of the business relationship (including disclosure to third parties).

15. Place of jurisdiction / Applicable law

- a) The sole place of jurisdiction for any disputes arising from the relationship between the relevant parties is Rorschacherberg/Switzerland. At its own wish, Ampack AG is also entitled to lodge claims against the customer at the customer's headquarters.
- b) The legal relationship is subject to Swiss law. The validity of the United Nations Convention on Contracts for the International Sale of Goods dated 1st April 1980 (the Vienna Sale of Goods law) is excluded. In the event of any matter of interpretation or any other disagreement, the German language version of these Terms and Conditions are definitive.

CH-Rorschacherberg, December 2025

® Ampatex, Ampatop, Ampacoll, Sisalex, Ampaphon and Idikell are registered trademarks of Ampack AG. The General Terms and Conditions of Business of Ampack AG will apply. All the information provided is based on the current status of technology. Any reproduction or re-print replaces the information provided in this brochure.
